

Dear Hiring Manager,

I was motivated to contact you upon learning that LIGHTNING LABS has an opening for a new Software Engineer. For several years I have focused my career path and academic pursuits on Information and Communication Technology and completion of B.Sc(Engg) program with Mawlana Bhashani Science and Technology University.

With a genuine and nurturing nature, combined with a professional and ambitious approach, I possess the primary skills needed in my field, including programming, frontend(React.js) and backend(Node.js). Additionally, communication and critical thinking are part of my skill set, with proficiency in leadership. As LIGHTNING LABS deals with React.js, Node.js and many other technologies, the work pressure and opportunities to learn are significant. I aspire to become an expert in this field in the next 2-3 years, making LIGHTNING LABS an excellent opportunity for me.

For further details of my qualifications, background, and academic history, please find my resume attached. I am confident that I can contribute positively to the Software Engineer role and I welcome the opportunity to speak with you at your earliest convenience.

Sincerely,
S. M. Atiqur Rahman
B.Sc(Engg)
Dept. of Information and Communication Technology
